

Browning Trail Cameras: Dark Ops ProX 1080 (46MP)

In the realm of camera traps, the upgraded (**46MP**) Dark Ops Pro X 1080 stands alone. Designed for enthusiasts who demand nothing less than peak performance, this compact camera blends power and stealth to capture every critical moment without compromise.

- With a lightning-fast 0.15-second trigger speed and a 30m detection range, the Dark Ops Pro X 1080 (46MP) is built to catch what others miss—whether it's a wary animal slipping through the shadows or an elusive predator on the prowl. Its (no glow) black flash ensures it remains undetected, while Illuma-Smart Technology adapts to every environment, guaranteeing crystal-clear images and videos, even in pitch darkness.
- The 1.5" built-in colour view screen puts control at your fingertips, letting you review **46MP** photos and **1080p HD videos** (1920*1080 @30fps) with sound right in the field. And with unmatched battery efficiency lasting up to a year on 8 x AA batteries, this camera is ready for the long haul.
- From quiet woodlands securing your land, the Dark Ops Pro X 1080 (46MP) is the ultimate tool for those who take scouting seriously.
