

Browning Trail Cameras: Strike Force PRO DCL NANO (46MP)

The updated Strike Force Pro DCL NANO (**46MP**) has a new, more compact housing and the most robust feature set in our Strike Force camera series. These cameras feature a high-performance Invisible Infrared Illumination System to increase picture quality and range at night like never before.

The Strike Force Pro DCL NANO also features "Dual Camera Lens Technology". This feature incorporates a custom tuned daytime camera lens to produce razor sharp daytime images, while the dedicated night camera lens takes incredibly clear nighttime photos. This camera packs all the performance you would expect with **46MP** picture quality, **4K video with sound**, lightning fast 0.15 second trigger speeds, and superior battery life.

Additional features include SD Card Management options and Smart IR video to keep recording game during the daytime as long as it's in motion. The Strike Force Pro DCL NANO is compatible with up to 512GB SD cards and delivers the best battery life on the market.
