20MP IR Model H-1453

Industry leading 1/4 second trigger speed

Cuddeback 20MP IR features legendary 1/4 second trigger speed and Super-Fast Recovery Speed - so the camera is ready for the next picture within 1 second of taking the first.

The result is that Cuddeback can capture two photos before many cameras can capture one.

And the pictures are incredible - 20MP color images when shot in daylight and black and white images when shot at night.

On top of performance, Cuddeback's Super Simple Setup makes setup and deployment virtually fool proof. Spend more time scouting and less time messing with the settings.

Cuddeback's Super Simple Setup makes setup and deployment virtually fool proof. Spend more time scouting and less time messing with the settings.

Cuddeback 20MP IR. Compact, rugged and ready to use, this is Cuddeback's premier trail camera.

20MP Images

1/4 second trigger speed

24 high-power IR LEDs for 100 foot range

Feature	Setting	Advantage
Flash Technology	Infrared with 850nm LEDs	850nm LEDs provide best IR image quality and longest range.
Flash Power	24 High Power IR LEDs 100 feet	Not all LEDs are created equally. Camera uses high power LEDs instead of cheaper low power commodity LEDs. Flash range is highly dependent upon the setting, but in a forest deer can be identified to over 75 feet.
Trigger Speed	1/4 second	Fast trigger speeds allows the camera to capture moving animals before they move beyond the view of the camera.
Recovery Speed	1 to 2 seconds	The camera can be ready for the 2 nd shot 1 to 2 seconds after the first allowing the camera to capture a second animal following the first.
Battery System	AA battery, quantity 8	AA batteries allows the camera to be very small
Battery Life	Up to 6 months Over 10,000 images	Battery life is dependent on battery quality, run days, number of images taken, temperature, and other factors.
Day Images	Full Color	20MP color images with stunning clarity.
Night Images	IR Black and White	20MP properly exposed b/w images with deep blacks and white whites. Not the gray wash out that is generated from lesser cameras.
Image Imprint	Date, Time, Moon Phase, CAM ID	Black bar identification for easy reading.
Time Lapse	12 seconds to 24 hours	Monitor food plots, construction projects or whatever you dream up.
Zone Control	No	
Camera Delays	1 second to 3 minutes	Provide versatility for trails, scrapes, food plots and feeders.
Burst Mode	1 to 5 images	Select to trigger multiple images per event.
Day & Night Modes	Separate day and night	Separate delays, time lapse, images, video, & burst for day and night.
No Card Mode	Yes	Camera will continue to record images without an SD card.
Super Simple Setup	Yes	Programming and setup is easy and intuitive.
Video with sound	Yes – 10, 20, 30 seconds	Plus, you can still get an image when you take video
Full Size Images	Yes (4:3)	Select if you prefer full sized images.
Genius Mount	Yes	Easier to deploy a camera when the mount is separated from the camera. Optional pan, tilt, lock sold separately.
Warranty Tracker	Yes	No receipt required to validate warranty.
5:2:1 Warranty	Yes	1 year standard warranty. 2 years with online registration. 5 year reduced cost replacement program.
