*Fast trigger speed,  
long battery life*

Cuddeback' s Xchange Flash system is a new concept in camera traps. Interchangeable flash modules now allow the camera trap to become either a color, IR or Black Flash camera trap.

Xchange Strobe Flash module features a 1.5" strobe with 570uF capacitors.

- Color pictures day and night
- Colour video clips – Day only

**STROBE FLASH MODULE = BRIGHT WHITE FLASH**  
from emitter when activated at night

Xchange Infrared (IR) Flash Module features 30 x IR LEDs for maximum performance.

- Color pictures during the day and black & white pictures at night
- Colour video clips during the day and black & white video clips at night

**INFRARED (IR) FLASH MODULE = RED GLOW**  
from emitters when activated at night

Xchange Black Flash Module features 30 x IR LEDs for maximum performance.

- Color pictures during the day and black & white pictures at night
- Colour video clips during the day and black & white video clips at night

**BLACK FLASH MODULE = NO RED GLOW**  
from emitters when activated at night

Est. 2007

STEP 1: Unscrew the 4 x screws on the flash cover

STEP 2: Gently pull out the existing flash module

STEP 3: Carefully replace with the required flash module  
(NB - make sure to line the flash pins up correctly)

STEP 4: Gently push the new flash module in to make secure

Est. 2007

STEP 5: Tighten the 4 x screws on the flash cover

Kind Regards

Chris & Nicola Pearson
