

Browning Trail Cameras: Dark Ops Pro XD

The Dark Ops Pro XD has the most robust feature set in our Dark Ops camera series. These cameras feature an invisible infrared flash to ensure game or trespassers on your property do not detect the camera while it is capturing images or videos. The Dark Ops Pro XD features our “Dual Camera Lens Technology” that utilizes a custom tuned daytime camera lens to produce razor sharp daytime images, while the dedicated low light camera lens takes incredibly clear nighttime photos. This camera delivers all of the performance you would expect from Browning Trail Cameras with 24MP picture quality, 1080p Full HD video with sound, lightning fast 0.15 second trigger speeds, and superior battery life. Additional features include SD card management options and a Smart IR video setting that allows the camera to keep recording game for up to five minutes during the daytime. The Dark Ops Pro XD is compatible with up to 512GB SD cards and is equipped with an adjustable IR flash range feature to provide the finest in invisible IR flash technology.
