

Browning Trail Cameras: Recon Force Advantage

The Recon Force Advantage camera features an adjustable detection range from 55ft.- 80 ft. and 3 adjustable IR flash modes for optimum picture control at night. Another great feature is the built in 2-inch color display that can be used to review images and videos in the field as well as precisely aim the camera using the live feed. The Recon Force Advantage also features the ability to capture the highest quality 20 MP images and true 1080p HD videos with sound. And to take that a step further, the 1920 x 1080 Full HD videos can be recorded in either 30 or 60 frames per second speeds for the most incredible video clips in the industry. Additional features include Smart IR video, which continues to record video footage while game is moving in front of the camera and SD card management options which allow you to overwrite older images on the SD card if the memory is full. The Recon Force Advantage is also compatible with up to 512 GB SDXC memory cards.

Model Number: **BTC-7A**
