

## CORE™ DS

**DUAL SENSOR TECHNOLOGY. THE DIFFERENCE THAT'S NIGHT AND DAY.** Most trail cameras use only one image sensor to capture images 24 hours a day. So you settle for daytime images that are less sharp and rich, and nighttime images that lack consistent illumination and range. CORE DS Dual Sensor Technology gives you two image sensors—one optimized for more sharp and rich images during the day and another optimized for images with consistent and further illumination at night.

- Dual image sensors for high quality images day and night
- 30m night flash range
- 30 megapixels
- 0.2s trigger speed
- 3-Preset Menus + Advanced Mode
- 2.4" Color built-in viewing screen (119975C & 119978C)
- 0.6s recovery rate
- 1080p 60fps video *with audio*
- 1-year battery life
- Removable Battery Tray
- Two-year limited warranty

**DUAL  
SENSOR  
TECHNOLOGY**  
Two image  
sensors  
optimized for  
highest quality  
images day  
and night.

**NIGHT IMAGE SENSOR**  
FOR HIGHER CONTRAST AND  
MORE DETAIL.

**DAY IMAGE SENSOR**  
FOR SHARPER, RICHER IMAGES.

WEATHERPROOF & RUGGED,  
MASTERLOCK PYTHON CABLE  
COMPATIBLE.
