YOUR PATIENT WITNESS

- All SPYPOINT cellular camera traps come standard with Preactivated SIM cards.
- Each camera receives a FREE Premium 30-Day trial subscription (unlimited photo transmissions).
- After this FREE Premium 30-Day trial subscription (unlimited photo transmissions) has expired – the camera will default to the FREE Photo Plan (100 Photos per month).
- You may purchase a photo transmission plan at any time and it will only take effect after FREE Premium 30-Day trial subscription (unlimited photo transmissions).

The SPYPOINT App and online web-portal is your hub for managing your SPYPOINT devices and information. The SPYPOINT App is available as a free download on either the iTunes or Google Play store, and the app requires no subscription or monthly minimum fee.

FROM THE SPYPOINT APP YOU CAN:

Manage account settings and preferences

Monitor data usage and plans

Modify camera settings

Configure transmission settings

View and sort images

ALWAYS AT HAND...

Free to download and easy to use, the SPYPOINT App is a complete management and scouting tool to help save you time and money, and make you more successful in the field.

PHOTO TRANSMISSION PLANS...

Connect with your passion, wherever you go.

All SPYPOINT LINK series cameras include our FREE monthly plan. The FREE plan means you never have an additional charge for your cellular camera after purchase, and you will still receive 100 images transmitted to the SPYPOINT app every month. Additional paid plans ensure you never miss a single image.

Selecting the right photo transmission plan for your cellular camera with other companies can be difficult. SPYPOINT works to ensure the data purchasing process is as simple and painless as possible. No cellular camera provider offers photo transmission plans with the balance of value and flexibility of SPYPOINT. Remember, because SPYPOINT cameras and photo transmission plans aren't connected to your personal cell phone provider, you can always choose the carrier network or plan that best suits an individual situation.

Every camera needs a photo transmission plan selected, as plans apply just to the camera for which they are selected. This camera-by-camera flexibility allows you to pay for just the data you need. For spots with a high volume of photos you can select the right paid plan, and for lower-frequency locations you can use the only free plan option available for cellular trail cameras. This flexibility can also be used on a seasonal basis, using the free plan in the off season, and going to paid plans as hunting season arrives.

FREE	BASIC	STANDARD	PREMIUM
100 photos	250 photos	1000 photos	Unlimited photos
Free	USD \$ 4 /month if paid annually (20% off)	USD \$ 7 /month if paid annually (30% off)	USD \$ 10 /month if paid annually (33% off)
No activation fees	USD \$ 5 /month if month-to-month	USD \$ 10 /month if month-to-month	USD \$ 15 /month if month-to-month
No activation fees	No activation fees	No activation fees	No activation fees

FULL-HD Photos on Request

- Get FULL-HD photos without having to retrieve your SD card

FULL-HD Photos on Request packages allow you to select photos you want to see in FULL-HD and have them sent to your app, instead of having to go to your camera area to retrieve the card and risk disturbing game.

How does it work?

To make a FULL-HD Photo request follow these easy steps.

1. When you find a photo you would like to see in FULL-HD, press the HD icon that appears below the image on the image viewing page of the mobile app.
2. This will make the request that the FULL-HD image be sent at the next transmission.
3. At the next transmission the FULL-HD image will replace the standard resolution image in your timeline.

You are able to view only FULL-HD images by selecting the HD filter on the timeline page of your SPYPOINT app.

HOW TO PURCHASE A FULL-HD PHOTOS ON REQUEST PACKAGE?

1 Login to the SPYPOINT App	2 Press "Account"	3 Press "FULL-HD Photos on Request"	4 Select the 50 photos package for \$5
---	--------------------------------	--	--

Once the camera firmware has updated to handle FULL-HD photos requests, the HD icon will appear next to the camera names in your camera selection box of the SPYPOINT mobile app. You can use the FULL-HD downloads on any of the cameras in your account that have the HD icon.

GETTING STARTED...

1. Open up the App on your smart device
2. Press 'ACTIVATE NEW CAMERA'
3. Select your correct camera model from the drop down list
4. Enter the SIM card number
 - a. You can use the supplied SPYPOINT Preactivated SIM cards OR and local network-registered SIM card
5. Select the country you are located in and enter your e-mail address and cellphone number.
6. That's it... you're done.

You will then receive two SMS's with your App login details (Username and Password) and Plan information.

An e-mail will also be set to you with the same information.

You can now log into your SPYPOINT account through the SPYPOINT App and view photos / change camera settings etc.

You can also log in to your newly created SPYPOINT account on the web-portal at <https://webapp.spypoint.com/login>

Please feel free to contact me if any additional information is required.

Kind Regards
Chris Pearson
