

Browning Trail Cameras: Strike Force HD MAX

The Strike Force HD MAX cameras feature an adjustable 0.3-0.7 second trigger speed and 0.6 second recovery time between pictures. The new adjustable trigger speed feature allows you to select the trigger speed that is right for your camera location. Experience high end performance with 18 MP picture quality, and a new video processor that produces incredible quality 1600 x 900p HD+ video clips with sound. The Strike Force HD MAX camera also takes night pictures using our "Zero Blur" technology, which eliminates motion blur from game in your pictures at a range of 100 ft. at night. Other features include SD card management options, and Smart IR video, which continues to record video during the day when game is present. The Strike Force HD MAX is also compatible with up to 512 GB SDXC memory cards.
