## SG 562C (White LED Flash)

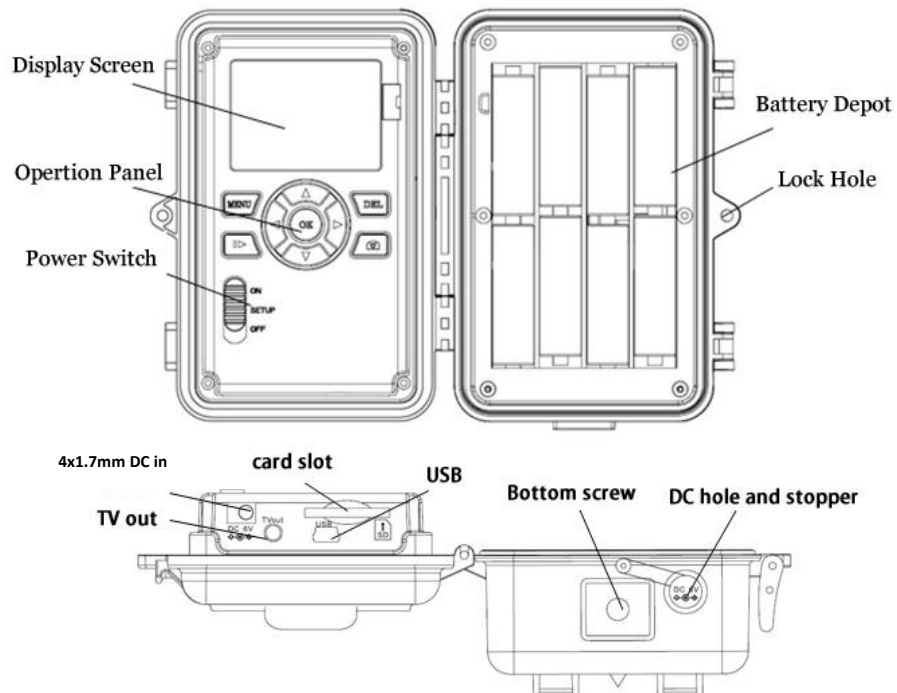

The SG562C - white LED flash camera trap is a compact, high quality, cost-effective unit. With 18MP image resolution and 1080p HD video quality it can record;

- Colour images (day and night)
- BURST MODE Colour images (day and night)
- Colour video clips (day AND at night)

The SG562C uses low energy consumption, high-power white LED flash emitters to generate the automatic night time visible flash for vivid colour images and video clips which greatly reduces 'motion blur' that is common with IR or black flash cameras. Uses 8 or 4 pieces of AA batteries and can be used in rain and snow.
