

## INFORMATION

### GREEN 30 - Black Flash + built-in viewing screen

UOVision GREEN30 camera trap with 30MP resolution and FullHD video with audio! It's taking camera trapping to the next level!

- 30 MP trail/security camera.
- Ultra-compact in size (125mm x 100mm x 65mm)
- Records HD video in 1080p and 720p with sound.
- Fast, adjustable trigger speed (0.22s)
- Built-In 2.4-inch colour viewing screen
- 1-10 turbo photo burst mode + time-lapse mode + photo + video mode
- Adjustable flash range (25m) with 40 invisible (no-glow) LEDs plus heaps of other features.
- Operates on 8 x AA batteries or external 6c DC power source or solar panel (sold separately) - *opened normally without disconnecting the battery cable from the camera during opening.*
- Camo finish
- Supports 2GB to 32GB SD and SDHC memory cards
- Camera mounting thread for a wall mount can be found on the bottom of the camera.
- Weatherproof

#### MAXIMUM SILENCE CAPTURE

The shutter of the UOVision GREEN30 camera trap is dead silent when triggered so will not alert and subject.

#### VERSATILE OPERATION MENU

The camera can be programmed to operate at a specific interval thanks to "interval shooting". At that time, the camera is only active at a certain pre-scheduled time. This function is useful if you want the camera to monitor the office, for example only at night.

- Time-Lapse shooting allows the camera to always capture an image over a period of time without the camera being triggered by a thermal subject. The function can be used to monitor for example a large field opening. This will allow you to see animals on the other side of a field. The PIR motion sensor is also ON during Time-Lapse, just in-case if the subject is passing close in front of the camera.

The overwrite function is useful if the camera's SD memory card becomes full. The camera starts overwriting old pictures or videos when the SD memory card becomes full.

All UOVision cameras have four-digit password protection in case the camera ends up in the wrong hands.

## **TECHNICAL SPECIFICATIONS:**

- \* 30MP picture resolution
- \* FullHD (1080P) videos with audio
- \* 40 LED High Power Infrablack Flash Technology
- \* Invisible infrablack flash for the human eye
- \* Adjustable flash output (Low / High)
- \* Flash range up to approx. 15m
- \* Optional image resolutions: 30MP, 18MP, 8MP, 5MP, 2MP
- \* Optional video resolutions: FullHD 1080P, HD 720P
- \* Audio recording in videos
- \* Video lengths: 10sec. – 60sec.
- \* 2.4 " LCD color preview screen (image viewing and camera programming)
- \* PIR motion sensor reaction time 0.22 seconds
- \* PIR motion sensor range approx. 15m
- \* Adjustable PIR motion sensor sensitivity: low, medium, high
- \* Shooting modes: Still image, Video, Still image + Video
- \* Multi-shot: 1 to 10
- \* PIR delay setting: 0sec. – 60min.
- \* Interval operation mode
- \* Time Lapse capture
- \* Time stamp: day, time, temperature
- \* Weatherproof construction (IP54)
- \* Operating temperature: -20 ° C.... + 60 ° C
- \* Operating humidity: 5%.... 90%
- \* Camo case
- \* SD memory card support: 2GB – 32GB (not included)
- \* Batteries: 8 pcs AA alkaline or Lithium batteries (not included)
- \* Outputs: USB, 6V DC, SD memory card slot
- \* Windows (98, 2000, XP, Vista, Win7, Win8, Win10) compatible
- \* Small and compact size
- \* The wall mount mounting screw on the bottom of the camera
- \* Password protection
- \* Lockable: Lock mounting rings on the shell
- \* Included: Nylon belt for tree mounting

Kind Regards

Chris Pearson
