

CORE™ DS-4K (119987C)

The CORE™ DS-4K offers dual sensors for high quality images day and night and checks all the boxes successful hunters want the most: The highest picture resolution with dual sensors for the best image quality at day and night, plus optimized battery life for maximum image captures and more time in the field without checking batteries. All in a compact design to stay hidden from eyes you don't want to alert animal and human.

Bushnell is built around one simple principle to make sure our materials, components, and features give you the best images and information possible in every situation, every day. After all, why settle for "good" or "better" when you can have the best? That's Bushnell.
